

GERMAN SUBMARINE SINKS LINER ARABIC

TWO AMERICANS AMONG THE MISSING PASSENGERS

SIX PASSENGERS AND TWENTY-SIX MEMBERS OF CREW ARE LOST

Capt. Finch Notifies Owners' Representatives that Blow Came Without Warning and Ship Went Down in Eleven Minutes—News Shocks Official Washington—President Reserves Judgment.

BULLETIN.

NEW YORK, Aug. 20.—The White Star officials announced at 2:30 o'clock this morning that a revised list showed twenty persons missing from the Arabic. Of this number two are Americans.

NEW YORK, Aug. 20.—A German submarine yesterday sunk the White Star line steamer Arabic off the south coast of Ireland, with a loss of six passengers and twenty-six members of the crew. 175 passengers and 222 members of the crew were rescued.

Among those who are thought to have perished were two Americans, of whom there are believed to have been twenty-six aboard the ill-fated vessel.

A revised list of survivors compiled from cable reports received from Liverpool early today indicated that Miss Bruguere and Edmund Woods still were unaccounted for among the American passengers. They were mentioned in previous reports as having been saved.

Officials of the steamship company announced that the vessel had aboard a total of 120 cabin passengers, 44 steerage passengers and a crew of 248, including the commander, Captain Will Finch, of the Royal Naval Reserve.

War time secrecy cloaks all sailings from British ports until the vessels are well on their way out of the German war zone. Steamers slip in and out of British ports unheralded, with darkened lights and shrouded portholes. They steam at top speed, with life boats swung out on the davits in anticipation of a death blow from a German undersea fighter.

And so it was that the Arabic sailed from Liverpool, bound for New York, the night before she met her fate off the Irish coast.

Blow Comes Without Warning.
Captain Finch notified his owners' representatives in Liverpool, it was said, that the blow came without warning. The torpedo struck the vessel one hundred feet from her stern on the starboard side, tearing a gaping hole well below the water line. The vessel began to settle almost immediately. In exactly eleven minutes, Capt. Finch is said to have reported, the waves and the darkness hid the vessel from sight.

Line Unprepared For News.
The White Star line apparently was unprepared for news of the sinking of the Arabic. Within the past three months there have been instances, notably those of the Adriatic, the Baltic and the Transylvania, when the agents of the trans-Atlantic lines have seen many moments as their vessels neared the war zone. Widespread, but erroneous rumors were in circulation that German submarines had destroyed the vessels or were lying wait for them off the Irish coast.

But there was no advance rumor concerning the Arabic's fate. It was not even known here officially that she had left Liverpool until word came that she had been sunk.

The Arabic was one of the largest of the few British vessels remaining in the trans-Atlantic service. On her recent trips she carried far fewer passengers, especially Americans, than in times of peace. When she sailed from this port, July 28, she was shielded so far as possible against gun fire which might destroy the steering gear, by bags of sand piled high about it.

Sunk South of Fastnet.
LONDON, Aug. 19.—The big White Star steamer Arabic, formerly a favorite ship of the Liverpool-Boston service, but which on her present trip was on the way to New York, was torpedoed and sunk by a German submarine at 9:15 o'clock Thursday morning southeast of Fastnet.

Six Passengers Missing.
The steamer according to a state-

ment of the White Star line, was attacked without warning and went down in ten minutes. Of the 423 persons on board—181 passengers and 242 members of the crew—32 are missing and are believed to have perished. Most of those who have not been accounted for belong to the crew. Only six of the passengers are reported missing.

Whether any of those not accounted for are Americans has not yet been determined, but there were only 24 citizens of the United States on board, 22 being in the second cabin and four in the steerage.

The Arabic carried no first class passengers, having lately been turned into a two class liner.

Survivors Reach Queenstown.
The survivors, who left the steamer in the ship's boats and were picked up later by passing vessels, arrived in Queenstown tonight. They are being accommodated by the White Star line in hotels and boarding houses in the little town which so short a time ago cared for the survivors and dead of the Lusitania.

Details of the sinking of the Arabic are lacking but that the loss of life was not greater doubtless was due to the fact that the weather was fine and that steamers plying German submarine war zone now keep their boats swung out and otherwise are prepared for emergencies.

The torpedo which sunk the Arabic struck her on the starboard side 100 feet from her stern.

The vessel left Liverpool Wednesday afternoon and took a southerly course, well off the Irish coast, doubtless with a view of avoiding the submarines which frequent the waters nearer the shore.

Liner Settles Down Quickly.
When some fifty miles west of where the Lusitania was sunk in May the German underwater boat rose to the surface and launched a torpedo. The marksmanship of the Germans, as in the case of the Lusitania, was deadly accurate and, like the Lusitania, the big liner settled down quickly and shortly disappeared from view.

Some of the survivors, according to reports received here, say that they had just witnessed the torpedoing of a British steamer, presumably the Dunsley and that this had caused great alarm on board the Arabic. In their fright the passengers had rushed for life preservers and barely had adjusted them when the German submarine turned its torpedo against the Arabic's side.

Rescue Many From Water.
Ten lifeboats and a number of life rafts were got over the side of the steamer quickly and into these a large number of the passengers and members of the crew scrambled. Many of the passengers, however, fell into the water but they got hold of the rafts and later were rescued. One woman who fell into the sea screamed for help. Two sailors swam to her assistance and succeeded in lifting her upon a raft.

Among those rescued were Captain Will Finch, commander of the Arabic, all of the deck officers, the chief engineer, the surgeon, the purser, the assistant purser, the chief steward and the third class steward. Third Engineer Lugon is among the missing.

Captain Finch formerly was in the Pacific Mail service but for some years has been in command of the Arabic. The steamer is the largest yet sunk by the Germans with the exception of the Lusitania.

Comes as Shock to Officials.
Washington, Aug. 19.—News of the torpedoing of the British steamer, Arabic, of the White Star line, with Americans on board came as a shock to officials of the United States government who had hoped since the dispatch of the last American note there would be no further aggravation of an already tense situation between the United States and Germany.

Official information was meagre and it was only through press dispatches that it was heard here that the vessel had been torpedoed without warning. While it was recognized that a canvass of the survivors might reveal that no American lives were lost, the torpedoing without warning of a vessel carrying Americans has in-

itself been pronounced by the United States government as a violation of its rights, which, if respected would be regarded as "deliberately unfriendly."

In the last note to Germany which, it generally was accepted, was the final word on the principles of the question from the United States, Secretary Lansing used the following language in referring to violations of American rights in the war zone: "Friendship itself prompts it (the United States government), to say to the Imperial German government that repetition by the commanders of German naval vessels of acts in contravention of those rights must be regarded by the government of the United States, when they effect American citizens, as deliberately unfriendly."

Will Not Predict Course.
What the course of the United States would be no official would predict because of the absence of detailed information. It must be established authoritatively whether any warning was given and whether the vessel attempted to escape.

If no American lives were lost, it was thought in most quarters tonight that drastic steps were improbable out in the event it is found Americans were drowned, a rupture in diplomatic relations were everywhere discussed as likely.

The attack on the Arabic came without official intimation from Berlin that submarine commanders would persist in torpedoing ships without warning and in the face also of constant reiterations in German quarters here that in the future passenger vessels would be given due warning. The incident therefore caused widespread surprise especially since the ship was bound for the United States and had no contraband. In some quarters, there was a disposition to think the German submarine commander might have exceeded his orders or made a mistake.

The general immunity which passenger liners of belligerent flags carrying Americans seemed to have enjoyed in the last few weeks had developed a feeling of confidence that the German government would avoid any incident which might intensify feeling in the United States and bring the relations of the two countries near the breaking point. For this reason, along with information as to what occurred when the Arabic was attacked, the viewpoint of the German foreign office is awaited eagerly.

President Wilson Started.
President Wilson was startled by the news. He spent the entire afternoon and evening trying to get detailed information. Though obviously worried, he took the position that judgment should be withheld until official details were received.

The president had just finished a conference with Attorney General Gregory and was preparing to go golfing when word of the sinking of the steamer reached him. He abandoned his plans immediately and gave orders that all information, official and unofficial, be forwarded to him as quickly as possible.

A cablegram from Vice Consul Thompson at Queenstown telling of the sinking of the steamer and later the vice consul reported the names of American survivors.

While house secretaries remained out duty during the evening and as press dispatches giving details were received they were communicated to the president who sent out several times for late editions of newspapers.

Lansing Sends No Instructions.
Secretary Lansing sent no instructions to Ambassador Page at London but is assuming that Mr. Page will advise the department promptly of the important news as soon as he himself can obtain reliable information.

The decision of the United States to refuse all claims for life or property lost aboard ships torpedoed with due warning was made clear today when it became known that a claim in the case of John Wall, a muleteer killed when the Armenian was sunk, would not be taken up by the state department. The department holds that there can be no legal claim in cases like the Armenian where ample warning was given and the ship refused to obey when subjected to shell fire.

RAILWAY SUPERS IN CONVENTION.
San Francisco, Aug. 19.—The busy railway superintendents who have been caring for the safety and comfort of thousands of tourists to the fair have taken a few days off themselves. Their brief respite brings them to the 28th annual convention of the American Association of Railway Superintendents, which opened here today. Mayor James Rolph, Jr. welcomed the railway men. Technical papers will be read today and tomorrow. After a brief view of the Fair, their special trains will whirl them back to their posts.

GERMANS CONTINUE ADVANCE IN EAST

**Russians Able to Hold
Their Own Only in the
Baltic Provinces**

ATTACK BREST-LITOVSK

**Teutons Report that They Have
Penetrated Outer Positions
of Great Fortress**

FRENCH SCORE SUCCESSES

LONDON, Aug. 19.—The sinking of the White Star liner Arabic with the loss, it is feared, of some fifty lives and a valuable cargo, has completely overshadowed all other news of the war despite the fact that the continued German advance on the eastern front seriously is endangering a portion of the Russian army and soon must have an effect on other fronts. Berlin repeats today the claim that the fortress of Kovno has fallen, compelling the Russians in the Kalvaryia and Suwalki districts on the east Prussian frontier to fall back. In fact, the Russians now appear able to hold their own only in the Baltic provinces, where they are preventing the Germans from advancing.

Penetrate Outer Positions.
Besides the capture of Kovno the Germans have taken additional Novogeorgievsk forts and, according to their account, have penetrated the outer positions of Brest-Litovsk, the great fortress which is the mainstay of what was expected to be the Russian new line of defense.

There is no evidence yet of Grand Duke Nicholas' intentions, but military writers are of the opinion that the swiftness of the German advance has rendered it impossible for him to make a stand on the Brest-Litovsk line, which already probably has been turned by Field Marshal von Mackensen in the south and by his colleagues in the north.

French Score Two Successes.
The French have scored two successes in the west, taking a German trench in Artois after a heavy all-day bombardment and making a further advance on the Linge summit in the Vosges. On both these sectors there has been heavy and continuous fighting in which the French claim to have greatly improved their positions by capturing important vantage points and keeping the initiative in their hands. There have been some long distance artillery engagements between the Serbians and the Austrians across the Danube but thus far there is no evidence of the commencement of the Austro-German offensive which was to carry relief to the Turks.

The forces of the Ottoman empire, besides being closely pressed by the Anglo-French allies on the Gallipoli peninsula, where a new British contingent has obtained a firm footing in the vicinity of Sulva Bay and by the Russians in the Caucasus, are threatened by a new enemy—Italy.

Issues Ultimatum to Turkey.
The Italian government, angered by the disregard by the Porte of protests against the treatment of Italian subjects in Turkey, is reported to have issued an ultimatum demanding that Italians be allowed to leave the country now, when and where they desire, a privilege heretofore denied them.

According to reports from Rome, Italy is making slow but steady progress against the Austrians on all fronts.

ANNOUNCES BANKS ARE THOROUGHLY PREPARED

COMPTROLLER WILLIAMS STATES INSTITUTIONS NEVER WERE STRONGER

Issues Statement That a Survey of the Condition of the National and Reserve Banks Is Distinctly Encouraging.

Washington, Aug. 19.—Comptroller of the currency Williams announced today that the present unemployed loaning capacity of national banks and reserve banks was sufficient to finance at market value the entire cotton crop and half, if not all of the tobacco and wheat crops, and to conservatively justify an expansion of credit of two or three billion dollars.

A statement issued by the comptroller referred to the prospect for unusual demands for funds, particularly in the event cotton should be declared contraband by the European belligerents, and declared a survey of the condition of the national and reserve banks was distinctly encouraging.

Never before Mr. Williams said, had the banks been so strong and so thoroughly prepared to handle any problem that might be presented to them.

Special requirements which the banks may have to meet in the near future were summarized by Mr. Williams as follows:

"First, the yearly recurring demand for funds with which to move the crops, which this year, except as to cotton, are unusually large and commanding full prices.

"Second, the unusual demand for funds which may arise to enable cotton growers to meet any congestion in the movement or marketing of the crops, in the event that cotton should be declared contraband.

"Third, the demands which are likely to be made upon the national banks both directly and indirectly in connection with the extension of credit to foreign purchasers of supplies.

SENATOR ROOT IS CHOSEN HEAD OF AMERICAN BAR ASSOCIATION

SALT LAKE CITY, Aug. 19.—United States Senator Elihu Root of New York was elected president of the American Bar association at its closing business session today.

A resolution on the Franklyn Lynch, presented by Stephen S. Gregory of Illinois, was adopted unanimously without discussion. It prohibited the lynching of a wilful and deliberate murderer by mob violence, and accomplished in a spirit of savage and remorseless cruelty unworthy of our age and time." It expresses the hope of the association that the authorities will speedily bring the guilty parties to the bar of public justice.

Bering gained fame as an engineer and helped to locate the noted Horseshoe Bend which marks an eastern railroad.

KNOWN DEAD FROM WEST INDIES HURRICANE 115

MORE THAN HALF OF THE 158 MISSING ARE BELIEVED LOST

Communication With Galveston and Texas City Continues to Be a Matter of Many Hours—Remote Points Begin to Report Losses—Gov. Ferguson Believes Local Authorities Are Able to Handle Situation.

HOUSTON, Aug. 19.—Known dead outside of Galveston from Monday night's West Indies hurricane were 101 according to reports here tonight. Missing outside of Galveston were 158. Of the missing list it was feared more than half were dead. Communication with Galveston and Texas City, a distance of sixty miles from here, continued to be a matter of many hours. It was known that Galveston's loss of life was comparatively light.

Remote Points Report Loss.
Remote points on Galveston bay, a body of water the size of an ordinary county, which penetrates the mainland for 50 miles, began to report today, some of them bringing small quotas of unidentified dead.

At Anahuac, on this bay, the loss of the United States dredge boat No. 12 was confirmed but there was no loss of life as reported from Beaumont. The loss of life at Anahuac was placed at 5.

W. T. Miller, United States engineering department inspection from Galveston, who was aboard this dredge, said it was moored six inch rope cables just before the storm. The wind snapped the ropes. As the large drifted one of the men volunteered to go overboard with a rope to swim ashore and try to moor the vessel to a tree. He went overboard but a gust of wind picked up the slack of the rope, whipping it out of his hands. Next day, said Miller, this man regained the dredge partly unhurt. Miller with three ribs broken, rode a log down Trinity river, then a horse for 26 miles and walked several miles through woods until he reached rail connections with Houston.

On his trip he found three dead at Wallisville and five missing at Moss Point.

Ask Boats to Search Shore.
Mayor Ben Campbell of Houston has asked that all power boats be available to search the shores at Galveston Bay and inlet for persons marooned and starving.

Edwin Carter of Houston, who was caught in the storm near La Porte at the head of this bay, was in the water from Monday until early Thursday morning. When found he was delirious and his eyes were swollen nearly shut. Refugees from Galveston today described the early hours of Tuesday, before daylight, when the center of the hurricane was passing at a point estimated by the United States weather bureau here as fifteen miles west of that city. Archie McDuffie of Waxahachie, Texas, said he spent the night in the terminal railroad station at Galveston. He estimated there were 5,000 persons in the upper floors of that building.

It was said not a woman fainted, although twice during the night the rain and spray which whipped high over the city was reddened with fires. As men entered the Terminal building many of them were asked whether they carried whiskey. None found with whiskey in his possession was permitted to enter the building. Mr. McDuffie said that many men threw away flasks but one man refused to enter without his flask and waded away to seek other shelter.

At daylight, when the storm had somewhat subsided, Blake Rose of Waxahachie swam across the street to some fruit which had not been demolished during the night. He dragged two crates of cantaloupes to the station where they furnished the only breakfast for hundreds of women and children.

General Franklin J. Bell of the second division at Texas City, has asked contributions of clothing for soldiers of his command and particularly for their families.

Governor James E. Ferguson of Texas who is here to take charge of general work today, issued the following statement:

"I trust the papers of the country will be careful in their statements with reference to conditions in the storm stricken areas. My information now is that the loss of life is not great and the local authorities will be able to handle the situation without outside assistance. Every-thing possible is being done to relieve conditions."

Lighthouse is Destroyed.
The destruction by the storm of

the light house at Surfside, Texas, about 50 miles below Galveston, was confirmed by couriers from that section tonight. These couriers said they knew positively that 19 persons lost their lives in the light house. It collapsed under the impact of use waves and roaring wind between midnight and two a. m. Tuesday.

Inland for 100 miles and over a zone reaching nearly 100 miles on each side of Houston, the vast south Texas prairies are dotted with crushed buildings and the whole country still is covered with water the result of a rainfall of nearly 7 inches which accompanied the hurricane.

Today, for the first time since the storm, the sun shone brightly. During the hurricane the wind was so cold on the prairies that many hard persons nearly perished from exposure incident to standing for hours in water and rain after their houses had become unsafe. A young son of Henry Heilman, near Alvin, died from such exposure.

Miles of Telegraph Poles Down.
Freight cars lie on their sides along the railroads in these flats and many miles of telegraph poles were snapped off or blown over. Harris county in which Houston is situated, has provided large quantities of disinfectant materials to use about bodies of domestic animals which perished by hundreds along the edges of the bays.

The steamer Honduras, overdue at Freeport, Texas, with 34 persons aboard, reported her safe arrival there today.

Railroads promised by tomorrow to have trains running on regular schedule from here to Texas City and thence by barge about six miles across the bay to Galveston. One road sent two trains to Texas City today, both crowded with passengers carrying permits from Mayor Ben Campbell, of Houston, explaining the nature of their business in Galveston and asking city authorities to admit them.

At the city hall here it was said these permits were necessary in the interest of order and safety while the water supply was impaired. Galveston authorities had declared what amounted to martial law.

A Defense of the South.

No happening in recent years has brought forth such a storm of protest from the press at large as resulted from the hanging of Leo Frank. Papers the country over have condemned the act in the most vigorous language, and as might be expected under such conditions, the condemnation of the mob that lynched Frank and the officials whose carelessness made it possible, has broadened into a vast amount of criticism for the whole south. Some of the editorial utterances which have broadened out in this way have been extremely vigorous in tone. The editorial in the Chicago Tribune Wednesday, a portion of which was quoted in the Journal yesterday, was the "strongest" of them all. It is very likely that the Tribune's very severe arraignment not only of the people of Georgia, but of a whole section of the country, will have the effect of stirring up a vast and wide-spread protest from the southern states.

Here in Jacksonville, even though so far north of the Mason and Dixon line, there is some feeling on this very question and this was voiced yesterday by Mrs. D. M. Moore, a southern woman, now resident in Jacksonville. Mrs. Moore said yesterday: "The editorial in the Tribune was so violent, so unfair to the south that I feel sure it will react, and I know positively that the statement contained in the editorial was rankly unjust to the south. I was a resident of Macon at the time of the murder of Mary Phagan, and while I do not assume to know all the facts about the case as affecting Frank's guilt or innocence, yet I do know something of the feeling that there was against him. It was a prejudice of race and any resident of the south can tell you the feeling there is against Jews in some localities. The horrible crime which was committed when that mob of men took Frank from the prison and hanged him does not represent the feeling of the people and is not indicative of the spirit of the south."

"The Tribune writer charged the south with a lack of moral sense and declared that educationally comparatively no advance had been made and that conditions could not be bettered until there was a change in this regard. Statistics do not show this statement to be true, and the advances educationally have been marked. Educational problems in the south because of the great negro population have been more complex than in the north, but the people of the south have grappled with these questions and have spent vast sums of money in their educational work and many laws on the statute books of practically all the southern states today indicate their realization of the need of educational facilities for all the people."

An investigation of conditions in the south will show that in morally the people have a better standing than is true in the north. You never heard of a vice commission in a southern state. You never hear of prosecutions under the so-called 'white slave' act. Graft in public life is far more rare than in the northern states, and so I may say that corruption among public officials is practically unknown in the south. Vice and immorality fill our insane asylums, and in the state of South Carolina where I was born, there are but two asylums, one for whites and one for blacks, and the one for whites has never been filled. This I give simply as an argument to show that the people of the south, sneaking in a general way, are not given to those dissipation and life that life which leads to the asylum. In no section of the country is woman so highly esteemed or treated with such courtesy."

"A white woman in the south can travel anywhere alone at almost any time without fear of being treated otherwise than with respect. Recently my daughter, a young lady of nineteen, came here from the south and I felt perfectly safe for her to journey to Washington alone. There I had my brother meet her and accompany her to St. Louis, where I met her myself. It was a knowledge of the difference in conditions between north and south that made me have safety during this long journey. In the south I know that in the treatment of the negro race that we sometimes do not seem to give them their full rights from a northern viewpoint, yet an unbiased investigation of the facts will prove how much has been done and is being done for the betterment and uplift of the race. A northerner who is not somewhat familiar with conditions in the south cannot understand things as they really are, but some investigation will show that the treatment catalogued as unfair has been absolutely necessary for the white people and the best thing for the negro race also. Any ill-treatment of the negroes, any unfairness, any disposition to keep them from progressing and becoming really good citizens, more represents the real feeling of

the south than does the crime committed by the twenty-five men who hanged Frank. I am sure that I speak for the southern people when I say again that lawless act cannot be too greatly decried, yet it is not fair, it is not just, that the press and the people of the north should heap such ignominy upon us as one can read in the newspapers of the day."

Mrs. Moore was born in South Carolina and is prominently connected there. She is a daughter of the Southern Confederacy, a woman of education, and it seems only reasonable to suppose that her feeling about the hanging of Frank is representative of the feeling of the great body of southern people.

WOMEN IN THE NEWS.

London.—War has given woman her rightful place in the medical world in Europe. Pleading her cause is now a thing of the past; the woman doctor is recognized, and her abilities are establishing a status of equality with men heretofore refused. It is pointed out by the Lady's Pictorial, of London, that no woman need despair of achieving any work upon which she has set her heart, when the position now held by the woman doctor is taken into consideration. For nothing seemed more hopeless than her case when she first claimed the right to be admitted to the medical schools. She is now actually sought for, is implored to bring others of her sex into the profession. The gaps in the medical field made by the requisition of doctors for service in the war hospitals have been filled by women. Epidemic horrors have been avoided both at home and in the battle lines. Queen Mary and Queen Alexandra are both interesting themselves in the London School of Medicine for Women and in the hospitals staffed by women doctors. The profession has drawn many women students, and medicine is now a feminine sphere and will be for all time.

San Francisco.—That polygamy will exist in many states of Europe after the war, is the prediction of Dr. David Starr Jordan, the noted peace advocate and educator. The conditions will be necessary in order to breed more men," he says. "However, I think that women are so enlightened today that it will not be sanctioned by the governments, but will exist sub rosa."

Wickford, R. I.—To be the grandmother of two sets of twins and to see the four children christened at the same ceremony is the unusual experience of Mrs. David S. Baker of this town. In the old Narragansett church, built over two hundred years ago, the christening took place recently. Her daughter, Mrs. Frank L. Hinckley, is the mother of one pair of babies, both girls, and her son, David S. Baker, Jr., is the father of the other twins, both boys. Many prominent guests attended the ceremony.

Tacoma, Wash.—A new athletic record has been established by Miss Ruth McCabe, of this city, who recently threw a baseball 209 feet 5 inches. The best previous record by a girl was made by Miss Dorothy Smith, of Vassar, with a throw of 204 feet.

Atlanta, Ga.—All the Georgia girls are now wearing yellow stockings. It has been discovered that Georgia Mosquitoes dread that color. As a result, Palm Beach suits and lemon, orange and champagne colored evening gowns are being worn, and the yellow stockings, however thin, serve as efficient armament against the mosquito.

Philadelphia, Pa.—Miss Vida Bispham, daughter of David Bispham, the famous American baritone, and granddaughter of General Charles S. Russell, U. S. A., has married in Italy a prominent banker, Riccardo Daddi-Bergheri, of Florence. News of the wedding reached friends of the Bisphams here last week. Miss Bispham has spent most of her life in Europe. She was reported engaged some three years ago to young Theodore Havemeyer, but the romance was broken off, and Miss Bispham went abroad to stay. Word comes that the bride has taken up nursing.

Boston.—A minimum wage for shop girls who are over 18 years of age, with one year's experience, has been set at \$8.50 per week by the board recently appointed by the minimum wage commission. Unexperienced girls over 18 are to get \$7.00 as a minimum; between 17 and 18, girls are to receive not less than \$6.00 per week, and under 17 not less than \$5.00 per week. This wage is suggested for saleswomen in retail stores. It will probably go into effect Jan. 1, not only in Boston, but throughout the state. It is estimated that 20,000 girls are to be benefited by the minimum wage.

Montreal, P. Q.—The power of women to keep their men folks from enlisting for war has been broken by the abolition of the regulation which forced married men to secure the permission of their wives before enlisting. The Canadian women claim that Canada has done its share for the mother country, and many have resented the new move to bolster up enlistments.

MATRIMONIAL

Smith-Walk.

Francis M. Smith and Mrs. Nettie Walk were united in marriage at the court house at 3 o'clock Thursday afternoon. The ceremony was said by Justice W. T. Dyer. The groom is a farmer and they will reside on a farm in Scott county.

WHEAT GRADING LOW.

Thomas Cain said Thursday that owing to wet weather and the difficulty that has been experienced in threshing, much of the wheat being delivered will not grade much better than No. 3. He is of the opinion that there will be considerable grading No. 4. Mr. Cain says that much of this wheat can be taken by elevator men and dried and made to grade higher but that it costs money to do this.

BRYAN TO SPEAK ON "CAUSELESS WAR"

JACKSONVILLE CHAUTAUQUA WILL BEGIN TODAY.

Attendance to Hear Prominent Speaker Promises to Set New Mark in Local Chautauqua History—Everything Practically Completed For Ten Days' Event—Bob Seeds Speaks Tonight.

Hon. William J. Bryan will formerly open the Jacksonville chautauqua this afternoon, when he will be heard at 2:30 o'clock on the subject "The Causeless War." Ever since it was announced that Mr. Bryan would be open for a number of chautauqua engagements during the summer months, various organizations have vied with each other to secure his services. The management of the Jacksonville chautauqua was fortunate in securing him and the attendance on the opening day promises to set a high mark for visitors on the grounds.

Mr. Bryan could not have chosen a topic of more vital interest, than that of the European war. Those who have followed his addresses since his resignation as secretary of state and know of his peace policies, will be the more anxious to hear what further he has to say on the subject. It will not be alone Mr. Bryan's speech that will draw the big crowd, that is expected today, but the fact that he will be welcomed as a former citizen who has long been a national character.

The Bryan day of 1896 set the high mark for "crowds" in Jacksonville and while the old record will not be equalled a great audience is anticipated.

Mr. Bryan will be accompanied here by Mrs. Bryan and they will arrive this morning at 11:10 over the C. P. and St. L. from Peoria, coming from Cedar Rapids. While in the city he will be entertained at the home of Mr. and Mrs. M. F. Dunlap. His stay will naturally be short in the city, as he is to make an address this evening at Virden. Inquiries have come from several towns as to the exact time Mr. Bryan is to speak and some are coming as far as Springfield.

By today at noon all the seats will have been arranged in the big tent and the lighting system which has been in the hands of G. A. Sieber will have been finished by today.

The park with its manifold tents erected in the last three days has certainly given the premises the real chautauqua atmosphere. Those who visited the chautauqua last year and attend this year cannot help but notice the many improvements which have been made for the health and convenience of the patrons. As has formerly been announced, Bryan day as well as every other day, will command only a twenty five cents admittance fee.

Bob Seeds This Evening.

During the afternoon and evening sessions the L. A. C. orchestra, composed of eight talented musicians, will furnish music. Bob Seeds will be the speaker in the evening, and all who have heard him will want to hear him again, for his wealth of wit is seldom excelled.

REV. H. S. ALKIRE HAS TWO OFFERS UNDER CONSIDERATION

Former Pastor of Brooklyn M. E. Church May Join Gulf Conference or Else Go to Jacksonville, Fla.

Rev. Henry S. Alkire, formerly pastor of Brooklyn M. E. church will transfer out of the Illinois Conference at the coming session at Springfield. He has two offers under consideration, one in Jacksonville, Florida, and the other in the Gulf conference. Both are flattering offers and Mr. Alkire will make a decision the coming week. His general health has not been good for some time, and he thinks that the salt sea air will be of benefit to his throat and nasal tubes, which have been seriously ravaged by catarrh.

His work at Park street church, Bloomington, has been up to the standard, characteristic of his pastorate everywhere. He built the new parsonage at Bloomington and has added two hundred new members. He was also one of the leaders in the local option fight in the McLean metropolis.

ITALIANS ANSWER LAST CALL.

New York, Aug. 19.—Thousands of Italians reservists are getting in "under the wire" today throughout the United States and Canada. It is the last call the last day on which the reservist vows can be lived up to. By decree of the Italian government all Italian reservists who fail to register with the consuls before night fall will have incurred the crime of desertion.

While no authentic figures are given out as to the numbers who have registered it is believed that a great percentage of the reservists in this country have responded. The Italian laborers in Eastern cities have responded almost to a man. The younger men have already been sent forward and the married and older reservists have been allowed time to adjust their affairs.

Allowance will be made to wives and children of Italian reservists who go to the front. Whether this will enable the families to live comfortably without becoming public charges is just now interesting the immigration officials and the charity bureaus of the country.

J. W. Anderson and two children, Jean and Jamie, have returned to their home in Kansas City, after several weeks visit at the home of Mrs. Anderson's parents, Mr. and Mrs. Albert Hackett on Sandusky street.

HAROLD BOYD MEETS DEATH BY DROWNING

SON OF REV. AND MRS. W. A. BOYD FINDS WATERY GRAVE.

Member of Jeffries Band Goes in Swimming With Wilbur Rogers at Hallatin, Mo., and Gets Beyond His Depth—Body Has Not Been Recovered.

The sad intelligence reached the city this (Friday) morning at 1:25 o'clock, through a telegram to Rev. and Mrs. W. A. Boyd, of 221 Webster avenue, from Charles C. Jeffries, of the death of their son, Harold Boyd, at Gallatin, Mo., Thursday afternoon.

The telegram stated that Harold and Wilbur Rogers had gone in bathing in the river near the chautauqua grounds and that Harold was carried beyond his depth. Every effort is being made to recover the body, but up to the time of sending the telegram it had not been recovered.

The untimely death of the young man comes as a great shock to his family and his many friends. He had just passed his 18th birthday last March and this fall would have entered upon his studies as a senior in the high school. He was well liked by the student body and took an active interest in the affairs of the school. He was a youth who possessed much musical ability, and he was a member of the high school band as well as Jeffries band, playing the cornet.

During the winter months he had been employed on Saturdays in Hopper & Sons shoe store and after school was out in May he was given a permanent position for the summer with the firm. He was a capable clerk, showing good business judgment and his services were highly appreciated.

Jeffries band has been filling a number of chautauqua engagements and is expected home late Saturday or early Sunday morning to play at the local chautauqua.

Besides his parents, the deceased is survived by one sister, Frances, who sympathized with the entire community in their deep bereavement.

BABY REGISTRATION THE GREATEST EVER

LISTS WERE CLOED THURSDAY FOR SHOW THE COMING WEEK.

One Hundred and Fifty-Six Children Entered in Addition to Twenty-Six in Special Class—Examinations by Physicians and Nurses Will be Held Wednesday and Thursday.

Those in charge of the registration for babies for the chautauqua baby contest were kept busy Thursday. This was the last day of registration and many were present to make registrations.

A reporter for the Journal dropped into headquarters Thursday afternoon and doctors were busy examining babies. Judging from the amount of noise made some of the future presidents and governors of the country and some who may be first ladies of the land were objecting strenuously to the liberties taken with them.

Those in charge announced that 156 babies had been registered for the chautauqua. It also was announced that twenty-six have received the special examinations.

The total number of babies registered is 156, there being 76 girls and 80 boys. The committee was very much interested to note that eleven were registered who appeared in both 1913 and 1914. Twenty-six children have been given the special examinations by physicians at the headquarters and the parents have shown great interest in the advice given them.

Examinations at the chautauqua grounds will be had next week in the Woman's Auxiliary headquarters, the girls Wednesday afternoon from 1 to 3 o'clock; the boys Thursday afternoon from 1 to 3 o'clock. The names of children, the ages, and the name and address of the father appear as follows on the register. Unquestionably the baby show is going to be one of the biggest of the chautauqua attractions.

PEORIA WOMAN
PRAISES REMEDY

Mrs. Tilla Conard Tells Remarkable Experience After Suffering for Months.

Mrs. Tilla Conard lives at 307 Morgan Street, Peoria. She suffered from stomach trouble for months. Nothing seemed to give relief. One day she visited a sister who resides in Bloomington, and upon urgent advice consented to try one bottle of Mayr's Wonderful Remedy. This, in her own words, is the story of her experience—read it.

"For a number of months I suffered terribly with pains in my stomach; would fill with gas and belch for an hour at a time. I had pains in my side which at times I thought would kill me. I was under the doctor's care for four months, but got no relief at all. One day while in Bloomington my sister persuaded me to take a bottle of your remedy. To say the results were wonderful would be putting it mildly. After the first dose my pain left me, my appetite improved, my skin became clear again and I felt like a new woman."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your drugist now and try it on an absolute guarantee—if not satisfactory money will be returned.

COCOANUT OIL MAKES
A SPLENDID SHAMPOO

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family, for months.

METHODIST PROTESTANT CHURCH
CHICKEN FRY AT CONCORD

Annual Affair Held Thursday Was Largely Attended and Neat Sum Realized.

The eleventh annual chicken and fish fry at the Methodist Protestant church at Concord was held Thursday. The affair has since its first bid for attention eleven years ago, so pleased the hundreds who have had the pleasure of attending one of the feasts of good things that it is only necessary to mention the date to attract the eaters.

The preparations were what years of experience had shown were needed and the convenience in waiting on the eaters was very much appreciated. The gathering was on the lawn in the church yard, where a large canvas awning was spread for protection from the sun and weather. Tables seating 100 were so arranged that service was prompt and meals were eaten while fresh from the culinary department. The menu consisted of chicken, fish, mashed potatoes, cream gravy, excellent home made bread, pickles, apple sauce, jellies, pies, cakes and tea and coffee. Everyone was busy and the occasion was, as is always the case, a very enjoyable one.

Among those present at the dinner were Mrs. R. C. Henley, of Jordan street, and her guests, Mrs. L. J. Sipper and daughter, Miss Mildred, of Chicago, Louis Piepenburg, C. J. Ator, Cass Hamm, Ellis E. Henderson, Mr. and Mrs. R. T. Smith and son, Harold, Mrs. O. N. Barr, Miss Louise Guyette, Charles Hopper, Mrs. F. P. Taylor, Mrs. R. S. Nelson and Mrs. S. T. Erixon and daughter, Miss Mary Catherine.

Quite a number from Jacksonville went out in the late afternoon in their autos to take supper.

CASE CONTINUED.

L. E. Mills was arraigned in Justice Dyer's court Thursday afternoon on the charge of obtaining money under false pretenses. It seems that Mills is alleged to have given two checks, one for \$10 to Hopper & Son and the other for \$8 to Fred DeFrates. The complaint was made by Fred DeFrates. The case was continued until Saturday, Aug. 21, and in default of bond Mills was sent to jail.

FRANKLIN EXTENDS
WELCOME TO MANY

THURSDAY'S PROGRAM PROVIDED VARIETY OF INTERESTING EVENTS.

Hon. George H. Wilson in Address Described Useful Citizenship—Baby Show Proved an Animated Contest—Today's Program.

The second day of the Franklin home coming witnessed a grand success with games, auto parades, athletic comedy acts, all sorts of contests, baby show, address by Hon. George H. Wilson, ball game and other attractions.

The propitious weather was in favor of the day and the crowds began to come early and kept coming all day and into the evening. As far as practicable the program of Wednesday was added to that of Thursday, though of course some features were omitted. In the morning the speech that was to be delivered by O. E. Tandy was not enjoyed but Warren Luttrell told everybody they were welcome.

The program as announced in the Journal Thursday morning was carried out in full. The various features took admirably and were well rendered. The comedy animals were irresistibly funny and the singing was excellent as were the other features. The athletic contests were exciting and made any amount of fun.

George H. Wilson Speaks.

The leading feature of the afternoon was the address of Hon. George H. Wilson, candidate for attorney general on the Republican ticket. The gentleman was well received and said among other things:

"There is much to be commended and desired in a comparatively small place, a town in which all are acquainted and work together and when a spirit of harmony prevails and a wire and enthusiastic public spirit there are many advantages. A man's real usefulness lies outside his business. He works for a living for himself and family but outside his business he employs his energies for the public welfare. He may accomplish great good by unselfish devotion to public welfare and aiding the advancement and progress of his place and each man is not the inconspicuous grain of sand that his brother in the great city is."

"Again, a man's pleasures are an index of his true character. The manner in which he finds his delights shows what kind of a person he is. If he finds his happiness in wholesome entertainments in which others may participate he is then a man on whom one may depend to be all right in character."

"The privilege of voting now more and more enjoyed by women is an indication of good. When woman goes to the polls and casts her vote it may be depended on that vice will not flourish as a result of her ballot but the saloon will find in her its bitterest foe. The action of our various legislative bodies is improving and while there is yet much room for betterment there is still cause for encouragement in their action."

The gentleman's address was heard with interest and close attention.

The Tables Well Served.

The tables were well served and six ladies managed the eatables for 400 people and handed it to the waiters at the tables in an hour and twenty minutes. As usual the feast was good and gave general satisfaction. Wednesday the people were served and attended by ladies of Franklin and immediate vicinity Thursday by ladies of Providence and Durbin and Friday will be served by ladies of the prairie and town.

The Baby Show.

The baby show under the management of Mrs. Fred Patterson was a big success and drew a large crowd to the pavilion in the center of the square. The little darlings were at their best and the fond mothers displayed their precious treasures with no small satisfaction. The tots gave evidence of their importance in various ways.

The first prize for the prettiest girl baby under six months went to Dorothy Parks of Loami; no second. Prettiest girl baby between six months and two years, Pamela Seymour; second, Ruth Hill.

Prettiest boy baby under six months, Bernard Scott Leak; second, Nelson Caldwell.

Prettiest boy baby between six months and two years, Harold Conner, of Jacksonville; second, John Joseph Zeller, of Alexander.

Sweepstakes, prettiest of the prize winners, Pamela Seymour.

The judges were Mrs. Smith, of New York, Mrs. Brown, of New Orleans, and Mrs. Jones, of San Francisco.

Notes.

Wright's hotel was handsomely decorated with flags and bunting. Some other buildings had some decorations.

Among the visitors were Mr. and Mrs. O. F. Buffe, who had the pleasure of meeting a good many friends and acquaintances.

The Waverly band did finely and the members covered themselves with glory.

The management decided positively to close this evening. There was some talk of continuing Saturday but finally it was decided to go no further than Friday night.

Program Today.

The program today will be the usual free shows, trained animals and others; children's quartette, fish fry and burgoon dinner; auto parade; address by Hon. W. E. Williams, of Pittsfield, democratic candidate for governor. Ball game, Franklin vs. Jacksonville Eagles.

AMERICAN UNIVERSITIES—KANSAS

George Fitch.

declare that the world is growing steadily worse.

The University is located on a high hill from which \$1,000,000 worth of wheat can be viewed in season and has a campus so large that the professors play golf on it. It was founded about fifty years ago, has over 2,600 students and gets as much money from the State each year as it would get from a \$15,000,000 endowment fund put at interest. Part of this money is spent in building stone buildings of large acreage and part of it goes in the production of lawyers, engineers,

doctors, poets, and newspaper men. The Kansas school of journalism is very enterprising and no student would hesitate to burn a barn to provide news on a dull day.

Kansas students are very lively and do not depend on traditions for amusement. They think nothing of getting up an entirely new set of traditions each fall. Their only permanent ambition is to beat Missouri each year in football and when an alumnus does not turn up at the annual game his class sends resolutions of respect to the widow. Twisting the Missouri Yager's tail and teasing the Wyoming dinosaur in the museum are the two great Kansas adventures.

The students of Kansas have none of the advantages of the great eastern schools. The state is totally dry and the only way for a student to become nobly wicked is to drink buttermilk with red pepper in it. However this does not seem to have undermined the constitutions of Kansas graduates. They are an unusually successful bunch and when Old Bill White and Bill Borah and Herb Hadley and Freddie Funston and other are lights of the present get together, they give the famous "Rock Chalk, Jay Hawk" yell with a skill produced by many years of practice.

HAD NARROW ESCAPE.

Mr. and Mrs. William McNamara of Clay avenue, a few evenings since while out for a buggy ride, met with an accident which fortunately for them had no really bad ending.

While driving along in a leisurely manner the coupling between the front and rear wheels became detached, causing the body of the vehicle to drop to the paving and throwing the occupants out. Mr. McNamara had presence of mind to hold onto the lines and the horse stood still until the gentleman could extricate himself from his unfortunate predicament. Neither of the occupants were injured, though slightly bruised by the sudden contact with the driveway.

CASE DISMISSED.

Corbett Bundy, who was arrested in Beardstown Thursday and brought to Jacksonville on the charge of swearing falsely to the age on a marriage license application, was released Thursday. The complaint had been made by the father of the girl Bundy married. Dunbar, the girl's father dismissed it probably thinking that the matter had best rest as it is.

STOP SCALP ITCH AND FALLING HAIR

People whose hair looks dull and lifeless and who find it growing dry, brittle, splitting at ends and coming out fast at every combing need a genuine scalp invigorator and should get one without a day's delay. A little Parisian Sage rubbed briskly into the scalp with the finger tips twice daily will work wonders for hair of this kind. Just a few days' use and the hair becomes glossy and healthy looking, dandruff vanishes, scalp stops itching and hair stops falling out. Parisian Sage is more than a hair tonic. It is a scalp treatment and its use means strong, beautiful hair and a healthy scalp. Cover & Shreve and leading druggists everywhere sell Parisian Sage. It is not expensive.—Adv.

World's Market News
NEWS OF SINKING OF ARABIC CAUSES FRESH WEAKNESS IN WHEAT
Reaction Comes After Prices Had Begun to Recover From a Setback Due to Excellent Reports From the Harvest in the Spring Crop Belt.
Chicago, Aug. 19.—News of the sinking of the Arabic caused fresh weakness in the market today after prices had begun to recover from a setback due to excellent reports from the harvest in the spring crop belt. With September at \$1.05½ and December at \$1.04½, quotations closed unsettled, ½c to 1½c under last night.
Corn finished unchanged to ¼c higher, oats ¼c off to ½c up and provisions with gains of 2½@5c to 20c.
Increase selling that followed the receipt of bulletins telling of fate of the Arabic depressed the wheat market visibly but the extent of the fall in values was not to exceed ½c on the bushel. This loss was virtually wiped out before trading reached an end for the day, although traces of nervousness were still evident when the final gong cleared the pit.
Corn at first sagged with wheat. Later, though, the market hardened owing to unwelcome cool temperatures and to pessimistic crop reports from the northern portions of the corn belt.
Oats merely tagged after corn. Shipping demand was fair but by no means urgent.
Shorts covering brought about a decided rally in provisions after an early decline. The weakness of grain and hogs seemed to have caused the bears to be trapped into selling too freely altogether.

STOCK MARKET BREAKS ABRUPTLY ON NEWS OF SINKING OF LINER
U. S. Steel Weakest of the Leaders Up to Midday, Fell Over 2 Points and Others of Almost Equal Prominence Showed Losses of 1 to 2, New York, Aug. 19.—Wall Street received an unexpected reminder today that a state of war exists across the water. The market which had been under pressure in the early hours, broke abruptly in the afternoon on news that a German submarine had sunk another British liner.
United States Steel, weakest of the leaders, up to midday, fell over two points and other stocks of almost equal prominence showed losses of one to two, while a few of the recently exploited specialties added 2 to 5 points to their reverses of the forenoon.
The closing was heavy to weak, with only slight recovery from minimum quotations.
Even before word of Germany's latest marine exploit became generally known there was an absence of the recent buoyancy and open manipulation of the so-called war stocks. In fact Bethlehem Steel, common and preferred, were conspicuously weak, also Westinghouse Electric, Pressed Steel Car, General Electric and the principal motor issues, losses in this group ranging from 3 to 10 points. New York Airbrake was the only noteworthy exception. The day's total transaction of 1,145,000 shares exceeded any session of recent months.
For the first time this week, foreign exchange played little or no part as a market factor. Demand sterling was a shade harder than yesterday's best and francs made further material recovery from their recent weakness.

SAW SOLAR HALO.

A distinct solar halo of more than ordinary size was observed Thursday forenoon by G. H. Hall, U. S. weather observer at Alexander. The phenomenon was visible about 11 o'clock. Cold rain is indicated by halos around the sun at this season of the year. In the winter, when they more frequently appear, storms and falling weather, are foretold.

SPY FIGHTS EXTRADITION ON FORGERY CHARGE

Former Clergyman Claims That Complaints Against Him Are Subterfuges and That British Government Wants Him for Other Reasons.

New York, Aug. 9.—A hearing is set for today in U. S. district court in Brooklyn on the charges brought against Ignatius Timothy Tribich Lincoln in behalf of the British government. The complaint of the British consul, on which he was arrested in Brooklyn, on Aug. 4, charges three cases of alleged forgery in England. Lincoln, when arrested claimed he is a German spy and that the forgery charges are trumped up to secure his extradition. He will make a bitter fight against the moves of the British authorities, as he states it means sure death for him if he is deported to England. Lincoln is only 36 years old, and has been a member of the British parliament. Since he reached America he has made no secret of his stand against his former government, and has made exposures of the English secret service. He is a Hungarian by birth, and studied in Germany and in Canada. In early life he went to England and was ordained a clergyman in the Church of England. Some nine years ago he became private secretary to S. See-Bohm, an English socialist, and assisted him in the investigations of the land and labor problem in Belgium. Lincoln, as he was then known although he was born Ignatius Tribich, was naturalized as a British subject in 1908, and two years later was elected to parliament from the Darlington district. It is believed that Lincoln knew some of the highest secrets of England. Since his arrival in America he has prided himself on the service he has done Germany, and has been outspoken in his bitter hatred of his adopted country. He is plentifully supplied with money. In the papers filed with the British complaint are mentioned three charges of alleged forgery. One is that Lincoln forged a paper whereby Mr. Rowntree purported to guarantee John Goldstein, trading as J. Grainger, 750 pounds with interest at 7 per cent. Another charge is the forgery of a signature in a bill of exchange, and the third charge alleges that Lincoln forged another name to a check.

Efficient Housekeeping

BY HENRIETTA D. GRAUEL.

THE BUSINESS OF HOME-MAKING.

HENRIETTA D. GRAUEL

"Houses should be equipped for housekeeping business just as factories are equipped for carrying on their businesses" is the declaration of a well-known woman. She is correct in her statement, too—cooking, cleaning, eating and resting need to be carefully planned for and house furnishings should be chosen not because they are merely useful but because they are most useful. But how very few women can buy everything new from the beginning or select to the best advantage when there is such a bewildering number of things to be used in every house! Another thing, women usually have to do what other people prefer. They call it doing their duty and are sweet and cheery about it. But if housework could all be done by modern methods the scrubbing and cooking and hard long work would be reduced. Shorter working hours in the home, larger pay and better results can come, however, if women will be more business-like in their work. It is a good suggestion. One must have courage and a vision of what is to be accomplished, though, or the mother of the family gradually drifts into being little more than an unpaid domestic servant. It is delightful to equip any working place with the most necessary

and convenient articles that can be found, but homes are so different and there are so many individual tastes to consider in every family that the command for women to "get together" or to "use system," or do "co-operative housekeeping" seems like a jest to many.

In every house there is general and permanent equipment in the way of drainage and plumbing; cupboards, laundry and heating system, that has probably been installed by a builder who considered durability and economy with never a thought for convenience. The household furnishings must conform to these conditions, no matter what the taste of the woman at the head of the house may be. But even so, and even if you are using the kitchenware that was your mother-in-law's "settin' out," and if your furniture is of the most uncomfortable "handed down" sort there is no reason why, when you do buy, you should not make your selections carefully.

I believe the majority of women do this, and perhaps the incongruity of one or two modern housekeeping implements in the midst of a medley of out of date and hard to use implements is what calls forth criticism so frequently from these superficial observers. To utilize space, to save steps, to have the home well lighted, the floors comfortably dressed, the windows attractive and the home itself sanitary and attractive is a big stunt that our women, bless them, do mightily well. Moreover from American homes come love and understanding and forbearance and the world needs these precious things just now as much as it does business-like methods in the home. Tomorrow—A Knuckle of Veal.

It bore evidences of having been worn smooth and bright in its transit down the river. Similar specimens are frequently found by residents along the river and they are highly prized as souvenirs.

PARK BOARD HELD MEETING LAST NIGHT

New Rule Will Permit Swimming—Oiling of Roads to Begin Today.

The park board held its regular meeting last evening and transacted routine business.

It was decided to permit swimming in the lake provided the swimmers are supplied with suitable and proper bathing suits.

Eating in the main pavilion from henceforth will be absolutely prohibited under any and all circumstances. There is now a structure for that especial purpose south of the lake. Private parties and picnics will be permitted to use it, first come, first served, free of charge.

It they will not be permitted to store their goods there to the exclusion of others. The intent is to treat all fairly and impartially.

When the structure is used for serving meals for pay there will be a charge and arrangements for purpose must be made with the secretary. This rule was recently broken through a misunderstanding.

The driveways are to be oiled and work on that contract will be begun today.

Everything seems to be in perfect condition for the chautauqua gathering.

GREAT CHAUTAUQUA WILL BEGIN TODAY

TENT COLONY LARGEST EVER SEEN AT PARK.

Everything in Readiness for the Opening Day—W. J. Bryan's Address Comes at 2:30 This Afternoon—Bob Seeds Tonight.

Everything in preparation for the chautauqua is moving along like clock work and with fair weather the enterprise bids fair to eclipse that of any of the preceding years. Thursday morning the grounds looked as if a white city had been reared in a night and the whole aspect was busy and animated, men hurrying back and forth were pitching tents and putting things in readiness for the great event which is to take place the coming ten days. The roads are being put in the best shape possible after the hard rains and every possible preparation for a successful meeting is being made.

Mr. Sieber had a force of five men at work with the lighting and that work will be in readiness for the first night. The large tent is in place and is as attractive as ever and will seat a vast audience such as will greet the distinguished speakers who will address the throngs who will attend. The refreshment pavilion is rapidly approaching completion and will be a fine addition to the facilities of the place. Other refreshment privileges are enjoyed by the concessionaries so there will be no need of any one going hungry who is able to pay for a meal or a lunch.

The chautauqua management has provided garbage cans which will be a wise sanitary measure. Pelham's shoot the chutes will be an amusement attraction.

The park never looked more beautiful than at present and its attractions are admitted by all who visit it and the outlook is most gratifying.

The farmers' institute tent looms up in the shape and the tent of the Jacksonville Farm Supply Company is its near neighbor on the north slope opposite the large tent.

Among the persons whose canvas houses are already up and ready for occupancy are "Fritch's Frights", an organization connected with the V. M. C. A.; James Ranson, C. B.
